East Hartford, CT | hernan.briceno@gmail.com | 860-502-8805
Senior Power BI & Cognos Migration Consultant
<https://www.linkedin.com/in/hernanbriceno/>

PROFESSIONAL SUMMARY

Senior Business Intelligence Lead with experience delivering enterprise reporting, analytics, and data management solutions across healthcare, finance, supply chain, insurance, **higher education**, and public-sector organizations. Extensive expertise in IBM Cognos Analytics, Microsoft Power BI, Oracle databases, enterprise reporting architecture, data modeling, dashboard development, analytics governance, and production support. Specialized in analytics modernization initiatives involving migration of legacy IBM Cognos reporting environments to Microsoft Power BI. Experienced analyzing existing Cognos reports, Framework Manager models, Oracle data structures, and business requirements to design equivalent or enhanced Power BI dashboards, scorecards, KPIs, operational reports, and self-service analytics solutions. Strong hands-on expertise in Power BI Desktop, Power BI Service, DAX, semantic models, row-level security, Oracle SQL, PL/SQL, data validation, report testing, troubleshooting, accessibility compliance, and enterprise reporting governance. Proven ability to work directly with business stakeholders, technical teams, and executive leadership to gather requirements, define reporting strategies, resolve complex data issues, support production environments, and deliver scalable analytics platforms aligned with organizational objectives. Known for combining deep Cognos expertise with modern Power BI capabilities to successfully lead reporting transformation and business intelligence modernization efforts.

EXPERIENCE SUMMARY

- **Microsoft Power BI** **3+ Years**
Capital Minds; Apex Systems (St Luke's Health Systems Account); USESI (US Electrical Services); Fusionworks
- **IBM Cognos Analytics** **3+ Years**
Apex Systems (St Luke's Health Systems Account); USESI (US Electrical Services); Walter Surface Technologies; MMM Holdings; GFR Media; Smart Solutions; Technology Partners
- **Microsoft Fabric – Released in 2023** **3 Years**
Capital Minds; Apex Systems (St Luke's Health Systems Account)
- **Higher Education Experience** **3+ Years**
University of Puerto Rico (Fusionworks); Board of Education Puerto Rico (Technology Partners)
- **ADA Title II Compliance Experience** **3+ Years**
University of Puerto Rico (Fusionworks); Board of Education Puerto Rico, Office of Management and Budget Puerto Rico, Teachers Retirement Board Puerto Rico (Technology Partners); Talcott Resolution, MAPFRE Insurance Puerto Rico – **ADA Title III**

PROFESSIONAL EXPERIENCE

Atlassian Administrator – CI/CD & DevOps Support

Apr 2026 – Present

Capital Minds Inc – Part-time – Remote

- Core Skills: Bitbucket + Jira Integration + Git CLI, YAML-based pipelines, multi-environment setup (Dev / QA / Prod), Permissions + workflow governance.
- Developed and configured YAML-based CI/CD pipelines to automate code integration and execution, supporting consistent promotion across environments
- Integrated Jira with Bitbucket version control.
- Building end-to-end Power BI reports using Fabric One Lake.

Cognos Power BI Migration Lead – SCM Systems Analyst

Mar 2024 – Apr 2025

Apex Systems – Boise, ID – St Luke's Health System Account

Healthcare

- Supported enterprise reporting modernization initiatives using Microsoft Fabric and Power BI, successfully migrating legacy Cognos-based supply chain, warehouse, pharmacy, and operational reports into modernized workspaces and self-service analytics solutions.
- Leveraged Microsoft Fabric data engineering capabilities alongside Power BI Desktop and Service to connect directly to complex Oracle data sources, ensuring highly optimized semantic models, data accuracy, and rapid stakeholder adoption.
- Utilized the unified Microsoft Fabric architecture to orchestrate backend workflows, manage secure workspaces, and develop equivalent or enhanced Power BI dashboards, scorecards, and operational KPIs.
- Served as ERP/WMS liaison for TECSYS WMS and Infor ERP environments, leading requirements gathering, end-to-end data mapping, solution design, rigorous testing, and accessibility-compliant reporting enhancements within a cloud-based healthcare organization.

Sr. Oracle Application Developer

Jun 2020 – May 2023

Talcott Resolution – Windsor, CT

Insurance

- Led development and optimization of Oracle-based financial systems supporting administration, pricing, trading, and regulatory reporting.
- Designed and maintained complex PL/SQL packages, stored procedures, materialized views, and ETL processes. Performed data modeling and database performance tuning in Oracle. Integrated SaaS and cloud solutions within Hybrid Cloud architecture using OCI and Oracle Fusion Middleware.
- Partnered with Finance stakeholders to translate business requirements into technical solutions. Created technical documentation, architecture diagrams, and data flow models. Supported production environments, performed root cause analysis, and executed release management processes.

PROFESSIONAL EXPERIENCE (Cont.)

Cognos BI Administrator – SCM Systems Analyst
USESI – Middletown, CT

Aug 2019 – Nov 2019
Supply Chain

- Designed & developed Cognos & Power BI reporting supporting WMS & ERP integration.
- Created data models and mapping specifications for supply chain workflows.
- Conducted testing, validation, and requirements gathering for enterprise analytics.
- ERP and related: Led ERP–WMS integration between Epicor Eclipse and Oracle TECSYS WMS. Conducted full-cycle data migration including mapping, transformation, and validation of master and transactional data.

Senior EDI ERP & Supply Chain Analytics Consultant
ShelterLogic Group – Watertown, CT, United States

Mar 2019 – Jul 2019
Manufacturing

- Supported Epicor Visual ERP daily operations across procurement, finance, and shipping.
- Managed full lifecycle of EDI X12 Supply Chain transactions via Gentran Server.
- Resolved integration errors across TrueCommerce, SPS Commerce, and CommerceHub.
- Designed PL/SQL and SQL Server scripts for transaction validation and reconciliation.
- Collaborated with E-Commerce and Supply Chain teams to analyze transaction performance and resolve discrepancies.

Cognos Admin/ERP Systems Analyst
Walter Surface Tech – Windsor, CT

Dec 2016 – Mar 2019
Supply Chain

- Delivered Oracle- and Cognos-based analytics across supply chain, distribution, warehouse, transportation, and finance. Technical and Functional lead to provide support in the US.
- Enhanced BI reporting performance using optimized modeling and query design.
- Administered BI security, user provisioning, and server performance settings.
- Built and maintained enterprise reporting frameworks using star schemas.

Sr. Oracle Developer
Fusionworks – Puerto Rico

Dec 2014 – Jun 2016
Consulting Services

- Implemented Oracle EBS HCM & Financials in the University of Puerto Rico, for 11,000+ employees across 13 campuses.
- Created reports and visualizations using Power BI and Oracle reporting tools.
- Developed concurrent programs, APIs, Fast Formulas, and PL/SQL integrations.
- Configured KFF/DFE flex-fields and automated data uploads.
- Built financial interfaces for AP, AR, and GL modules.
- Reduced tickets for production support related with backend database development.
- Gathered and documented ERP/CRM requirements using structured SDLC methodology.
- Created technical solution design documents, data maps, and workflow diagrams.

PROFESSIONAL EXPERIENCE (Cont.)

Sr. Cognos/Oracle Systems Analyst **Nov 2012 – Nov 2014**
MMM Holdings – Puerto Rico **Healthcare – Medicare – Medicaid**

- Developed and maintained healthcare claims and enrollment reports.
- Delivered analytics and reporting for healthcare claims and enrollments systems.
- Implemented BI changes using SDLC processes, including BRD, FTD, design, and testing.
- Provided production support and issue resolution for enterprise Oracle and SQL Server environments.
- Reduced tickets for production support in Cognos and Oracle database environments

Sr. Cognos Financial Business Intelligence Lead **Sep 2006 – Oct 2012**
GFR Media – Puerto Rico **Multimedia**

- Developed enterprise financial dashboards and OLAP cubes using Cognos Transformer, Power Play, Report Studio, Analysis Studio, Events Studio.
- Maintained data mart models using Framework Manager.
- Built Balance Sheet, Income Statement, Budget, and Cash Flow reporting solutions.
- Designed data marts and ETL processes using SSIS.
- Administered Cognos security and performance optimization.
- Implemented Prophix Financial Planning and Analytics for Budget Department.

Sr. Cognos Administrator / Developer **Jan 2005 – Aug 2006**
Smart Solutions – Boca Raton, FL **Consulting Services**

- Implemented enterprise BI data marts for First Caribbean Bank, Barbados.
- Developed Cognos reports aligned to audit, risk, and financial performance metrics.
- Administered Cognos security and maintained compliance with financial regulatory expectations.
- Led the implementation for reporting, data mart creation, framework manager.

Sr. Cognos/Oracle Developer **Jan 2000 – Aug 2004**
Technology Partners – Puerto Rico **Consulting Services**

- Designed BI data marts and Cognos Framework Manager models.
- Built enterprise Cognos reporting solutions.
- Delivered operational risk and performance dashboards.
- Conducted user validation, testing, and knowledge transfer sessions.
- Developed Oracle PL/SQL applications across banking, finance, and government sectors.
- Delivered instructor-led Oracle and Cognos training sessions.
- Implemented reporting analytics using Cognos in Department of Education of Puerto Rico
- Worked in BI implementation in Teachers Retirement Board of Puerto Rico

CORE SKILLS

Power BI, Cognos Migration & Analytics Modernization: Microsoft Power BI Desktop, Service, Workspace Administration, DAX, Semantic Models, Report Migration (Cognos to Power BI), Dashboard Development, Scorecards & KPI Reporting, Data Visualization, Row-Level Security, Accessibility Compliance (ADA), Enterprise Reporting, Self-Service Analytics, Usage Metrics & Adoption Reporting, Microsoft Fabric

IBM Cognos Administration & Architecture: IBM Cognos Analytics 10.2.x/11.2.x, Framework Manager, Cognos Administration, Connection, Server Architecture, 3-Tier Architecture, Security Administration, LDAP Authentication, Role-Based Security, Report Migration, Deployment Management, Performance Tuning, Query Optimization, Content Governance, Modeling, Transformer, PowerPlay, Report & Analysis Studio.

BI Infrastructure & Governance: Enterprise Reporting Platforms, BI Governance, Metadata Management, Data Governance, Production Support, Root Cause Analysis, Capacity Planning, Environment Management, SDLC, Change Management, Technical Documentation, SOP Development, Release Management, ITIL-Aligned Support.

Databases & Data Engineering: Oracle SQL, PL/SQL, MS SQL Server, ETL, SSIS, SQL Loader, Data Modeling, Star Schema, Snowflake Schema, OLAP, OLTP, Query Optimization, Data Integration, Cloud Data Platforms.

Cloud, DevOps & CI/CD: Bitbucket, Jira Integration, Git, YAML Pipelines, CI/CD Pipelines, Multi-Environment Deployments, Workflow Governance, OCI, Hybrid Cloud Architecture, Release Automation, Source Control Governance.

AI & Modern Analytics Tools: ChatGPT, Gemini, Microsoft Copilot, GitHub Copilot, AI-Assisted SQL Development, AI-Assisted Analytics, Prompt Engineering for BI Workflows, AI-Enhanced Documentation & Reporting Automation.

Leadership & Collaboration: Technical Leadership, Cross-Functional Collaboration, Mentoring, Stakeholder Communication, Requirements Analysis, Agile, Scrum, Kanban, Problem Solving, Training & Knowledge Transfer.

CERTIFICATIONS & EDUCATION

Certified Scrum Master, Oracle Cloud Infrastructure, Oracle Cloud APEX Associate, Oracle Cloud Data Platform, PL-300 Power BI Data Analyst (In Progress)
