1. Purpose
2. How to Use This Template
3. Stakeholder Analysis Matrix
4. Influence Scale
5. Notes

4. Purpose

The purpose of this Stakeholder Analysis Matrix is to identify all individuals and groups involved in the project, define their roles and responsibilities, and assess their level of influence. This ensures effective communication, governance, and engagement throughout the project lifecycle.

5. How to Use This Template

Use this matrix during:

- Project initiation

- Requirements gathering
- BRD updates or change control
- RACI development
- Communication planning

For each stakeholder, define:

- **Role** in the project
- **Responsibility** for deliverables
- **Influence** on decisions and approvals

6. Stakeholder Analysis Matrix

Stakeholder Role Responsibility Influence

Stakeholder 1 Role Responsibility Influence

Stakeholder 2 Role Responsibility Influence

Stakeholder 3 Role Responsibility Influence

Stakeholder 4 Role Responsibility Influence

Stakeholder 5 Role Responsibility Influence

Stakeholder 6 Role Responsibility Influence

Stakeholder	Role	Responsibility	Influence
Stakeholder 1	Role	Responsibility	Influence
Stakeholder 2	Role	Responsibility	Influence
Stakeholder 3	Role	Responsibility	Influence
Stakeholder 4	Role	Responsibility	Influence
Stakeholder 5	Role	Responsibility	Influence
Stakeholder 6	Role	Responsibility	Influence
Stakeholder 7	Role	Responsibility	Influence
Stakeholder 8	Role	Responsibility	Influence
Stakeholder 9	Role	Responsibility	Influence

7. Influence Scale

Use this scale to classify stakeholder influence:

- **High** — Key decision-maker; must approve major deliverables
- **Medium** — Provides critical input; influences scope and requirements
- **Low** — Informed stakeholder; limited impact on decisions

8. Notes

Use this section to capture additional context such as:

- Stakeholder concerns
- Engagement preferences
- Communication needs
- Dependencies
